

Restore..Protect and Beautify... your furniture and woodwork

Restor-A-Finish®

Restore it - Don't Strip It!
With a simple wipe-on, wipe-off process, most finished wood surfaces that seem to need a complete refinishing job can be restored in a few minutes. White heat rings and water marks, sun fade, oxidation, smoke damage and most other blemishes can be quickly blended away. Before you go to the extreme of stripping it, try restoring it!

- Eliminates white cup rings
- Blends away water and heat damage
- Removes haze and dullness
- Blends out minor scratches
- Preserves original patination
- Does not dissolve the original finish

How does it work?
Restor-A-Finish is a unique finish-penetrating formula that contains a small amount of stain combined with just the right amount of solvent and restoring oils, giving it the ability to permanently restore the existing finish without removing, softening or stripping it. Restor-A-Finish penetrates faded shellac, varnished and lacquered finishes to bring back the original colour and lustre, restoring depth of grain, and going much deeper than temporary “scratch cover” products. Restor-A-Finish penetrates and permanently restores most wood finishes without removing any of the existing finish. Restor-A-Finish works best when applied with a pad of white cotton cloth. For severe white rings or oxidation use Superfine #0000 Steel Wool. For carved surfaces, you may use a small paint brush or soft toothbrush. Avoid pouring Restor-A-Finish directly onto the finish. When applying it be sure to select a moderate area at a time - don't attempt too large an area. Always wipe dry. Use the colour chart on the back of this brochure to help select the Restor-A-Finish shade that best matches the finish you want to restore. Restor-A-Finish comes in eight wood colours plus Neutral: Maple-Pine, Golden Oak, Cherry, Walnut, Mahogany, Dark Walnut, Dark Oak, Ebony Brown. Neutral is clear.

Precautions:
Do not apply polyurethane over a Restor-A-Finished surface.
Do not apply Restor-A-Finish to imitation wood finishes or use as a wood stain.
Be careful to protect fabric, carpets, or linoleum when applying Restor-A-Finish, as it may leave a permanent stain. If spilling does occur, immediately scrub area with soap and water or Howard Clean-A-Finish and wipe dry.

We now offer Restor-A-Finish in a small kit complete with Orange Oil, Feed-N-Wax, Steel Wool and one FixStix (hole and crack filling wax stick).

Superfine Steel Wool #0000

- Super fine yet tough.**
- Will not score wood when used as directed
 - We supply only the finest grade European style steel wool
 - Assists penetration of Restor-A-Finish into varnished surfaces
 - Smooths the surface of wood when used with Howard waxes
 - 16 pad bags or individual pads

Feed-N-Wax®

Feed-N-Wax uses the power of real orange oil along with carnauba wax and beeswax to beautify and protect. Use Feed-N-Wax whenever the wood finish looks faded or dry. It enhances the natural beauty and depth of grain in all woods, finished or unfinished. Feed-N-Wax was developed to be the perfect follow-up to Restor-A-Finish.

Prevent Drying and Cracking
Use Feed-N-Wax to preserve wood finishes and keep the finish from drying out and cracking. Over time, wood furniture, cabinets, and especially antiques, tend to “dry out” and fade. Feed-N-Wax helps introduce polishing oils that “feed” the wood, while leaving behind a protective coating of Brazilian Carnauba Wax and beeswax.

- Beeswax nourishes wood as it has done for centuries
- Carnauba wax is hard and incredibly durable with a high melting point
- Orange oil liquefies the blend and aids penetration deep down
- Protects and beautifies wood and furniture surfaces
- Delivers a rich lustre and reveals beautiful grain
- Preserves sensitive antique finishes
- Nourishes and replenishes essential oils
- Prevents drying and cracking
- Maintains the restored finish after using Restor-A-Finish

Orange Oil™

This world famous cleaner and polish for furniture, Howard Orange Oil, was the first orange oil for furniture and wood ever to be produced. The Colonial boy in the hat on the label of all Howard Products is your guarantee of quality. With Howard Orange Oil you get the cleaning power of cold pressed orange oil and the protection of high grade mineral oil, everytime you dust. These oils help remove dirt and grimy build-up on all your wood furniture without drying out the finish.

- Superior furniture polish, gentle yet highly effective
- Nourishes and seals wood naturally
- Enhances the beauty of natural grain
- Trusted on all antique French polished surfaces
- Safe to use on all wood surfaces inside and out
- Leaves no wax build-up, only a nice shine and a fresh citrus scent
- Contains no silicone, toxic chemicals or fillers like linseed oil

Restor-A-Finish® Colour Guide

Please use the colour chart as a guide only. Printers ink cannot replicate the exact colour of wood and always remember all wood has many colours in the complexity of the grain.

Neutral (Colourless):

When colour boost is not required

Maple-Pine:

For all light wood finishes

Golden Oak:

To enhance all mellow golden hues

Cherry:

For rosewood & lighter shades of red

Walnut:

For all medium brown tones

Mahogany:

For mahogany, red cedar, jarrah, etc

Dark Walnut:

For medium-dark to dark tones

Dark Oak:

For darker tones

Ebony Brown:

For very dark to black tones

These tints don't change colour dramatically like wood stains. They “boost” the existing colour.

Note: Howard Products Australia has a range of local products on a separate brochure.

Available at:

PICTURE FRAMING SHOP

"Where Picture Framing is an Art"

Citrus Shield™

Premium quality paste wax.
True premium quality paste wax. Unlike liquid Feed-N-Wax this is a thicker wax made from Brazilian carnauba wax, beeswax and orange oil.
Citrus Shield delivers a rich protective coat which buffs to a long lasting high shine on fine antiques as well as on modern finishes.
Available in four naturally pigmented wood colours plus neutral. Ideal for finished and unfinished woods, may also be used on concrete, marble, metal and painted surfaces.

- Easy to apply and polishes to a beautiful shine
- Provides a hard protective coat of carnauba and beeswax
- Perfect on French polished surfaces to reflect the high standard expected
- Repels moisture and nourishes both the finish and the wood
- Fills shallow dents and covers minor discolouration in wood
- Colours Available: Neutral (clear), Golden Oak, Walnut, Mahogany and Dark Oak
- Natural formulation, skin safe and Toluene free

Butcher Block & Cutting Board Oil™

Howard food-safe Butcher Block & Cutting Board Oil is made from clear, odourless, pure food-grade mineral oil. It is safe and excellent for preparing and seasoning cutting boards and butcher blocks and wooden utensils, also great on bamboo.

- 100% food-safe, Colourless, Tasteless, Odourless
- Enriched with Vitamin E
- Exceeds FDA regulations for direct and indirect contact with food
- Will not go rancid like vegetable oils
- Use when a non-waxed surface is required

Butcher Block Conditioner™

Howard Butcher Block Conditioner is made especially to protect butcher blocks, cutting boards, wooden bowls and utensils used in food prep areas. The penetrating quality of food-grade mineral oil along with the water-resistant traits of beeswax and carnauba wax rejuvenates the wood and prevents drying and cracking. Naturally antibacterial waxes help seal and repair knife marks. It protects the wood by keeping the mineral oil in and the moisture out. High food-grade mineral oil, carnauba wax and Vitamin E prevent bacterial contamination.

- Ideal for salad bowls, wooden utensils and bamboo
- Helps keep wooden toys safe for infants
- Creates a deep down food safe environment
- Reveals the beauty of grain in bowls and blocks
- Antibacterial waxes give another level of protection
- Exceeds FDA regulations for direct and indirect contact with food
- Contains Vitamin E for added protection

Restor-A-Shine™

Howard Products has developed two products with old fashioned ingenuity for restoring the shine to semi-gloss and high-gloss wood finishes. While the name may be a bit obvious, Restor-A-Shine literally does what it says and is an excellent addition to Howard's veteran Restor-A-Finish. Restor-A-Shine completes the restoration job when it comes to the surface of an originally high shine wood finish. Suitable for antiques as well as modern furniture finishes Restor-A-Shine comes as Polishing Compound and Burnishing Cream. Both products utilise extremely fine polishing powders blended with orange oil to restore the brilliance to the look and the smoothness to the feel of a high shine wood finish.

- Removes fine scratches and revives dull areas in wood finishes
- Fine buffing powders help restore the finish back to its original shine
- Suitable to use on shellac, lacquer, varnish and polyurethane finishes
- Does not contain silicone or linseed oil

Pine-Ola™ Silver Polish

Known among generations of Silversmiths as “the silver saver”.

- Cleans and polishes all silver and silver plate, even chrome
- What else can you find for pewter? Try this!
- No harsh chemicals or abrasives
- Even good for polishing appliances
- Retards tarnish and keeps silver bright

Pine-Ola™ Copper & Brass Polish

Instant action – Beautifies your brass and cleans your copper

- Amazingly fast and easy to use
- Cleans and polishes all ornament copper, brass and bronze
- Works brilliantly on stainless steel
- Special Pine-Ola blend retards the tarnish for a long-lasting shine
- No harsh chemicals or abrasives
- Gentle on hands

Pine-Ola Silver Polish and Copper & Brass Polish are made from a closely guarded family formula more than a century old. The original trade name has been retained by Howard Products as Pine-Ola Polishes actually contain pine oil a well-known tarnish retardant. These polishes are water based making them safe and easy to wash your hands after use.

Lemon Oil™

A partner to Howard Orange Oil, Lemon Oil offers some subtle differences.

- Lemon oil is higher in citric acid than orange oil
- Lemon oil therefore is a specially powerful cleaner
- Used for centuries as a trusted household polish
- Dissolves wax build-up, fingerprints, and grime
- Great for violins, guitars and acoustic instruments
- Wonderful for natural oiled finishes
- Helps keep bugs and mould at bay
- No silicone, toxic chemicals or useless fillers
- Fresh, subtle, citrus aroma

SunShield™

Formulated to keep tropical hardwoods from cracking, drying and oxidising due to exposure to sun, temperature variations or light moisture.

SunShield is however, not recommended on wood exposed to the elements 24/7. SunShield combines UV inhibitors along with a unique blend of carnauba wax, beeswax and orange oil to protect the natural beauty and depth of grain in outdoor wooden furniture.

- Contains UV inhibitors, beeswax, carnauba wax & orange oil
- Protects against sun damage and light moisture
- Lessens impact of temperature variations
- Maintains the natural beauty and depth of grain
- Easy to apply, gel-like consistency
- Polishes outdoor furniture to a soft lustre
- Does not contain silicone or linseed oil

Clean-A-Finish™

The Cleaner that gives dirt a lift.
The safe way to clean wood, upholstery, leather and more.

- Safely removes dirt, unwanted oils and resins from wood
- Easily removes wax build-up on furniture and antiques
- Gentle yet powerful cleaner on all upholstery
- Spot cleans rugs, carpets and clothing
- Breaks down grease and grime on kitchen cabinets
- Soap-based formula, no bleach or ammonia or chemicals
- Does not contain detergents or solvents
- Child and pet safe

The Naturals™

Genuine natural products are hard to find and yet people more than ever before are demanding them. The Naturals is a name Howard Products gave to a range of products which were designed around a formula containing only vegetable derived ingredients with the choice of non-allergenic fragrance free or fragrances derived only from high grade essential oils. Howard Naturals are available in 5 products: Wood Conditioner, Wood Cleaner and Polish, Stainless Steel Cleaner, Granite & Marble Cleaner and Upholstery Cleaner. All are available in your choice of Sandalwood-Tangerine, Lemongrass-Lime, or Fragrance-Free.

- No petroleum, no synthetics, no ammonia, no bleach
- Non-abrasive, non-acidic, non-toxic and they work brilliantly
- Safe for all food-prep areas
- Safer than chemical-based products
- Not tested on animals
